

BENCHMARK · 5 PEER INSTITUTES · OCTOBER 2026

IIM Mumbai Alumni Benchmark

What leading institutes do differently — and what IIM Mumbai can learn

Peer choice. Picked for what IIM Mumbai can learn, not for rank: three IIMs (same degree, placement cycle, student-committee model) and the two IITs with the best-documented alumni work. IIT Bombay is also IIM Mumbai's Powai neighbour. IIM Kozhikode, IIM Lucknow and IIT Madras were reviewed and dropped: similar models, thinner evidence. **Evidence:** official pages first. [n] = source, p. 6.

FIVE THINGS THE BENCHMARK SHOWS

1 · Students do the legwork

SARC, IIMC's Alumni Cell and IIMB's student committee run student-facing work; offices own awards and giving. IIM Mumbai already has this structure.

2 · City meets ride the internship

IIMC's Nostalgia is run by PGP-1s on summer internships; Anusmaran works the same way. IIM Mumbai's regional meets fall in the same window.

3 · No one tracks mentoring past the match

IIT Bombay matches 300+ mentors; IIT Delhi matches by algorithm. None of the five publishes what happened after the match.

4 · The cheapest tool reaches furthest

IIT Bombay's Phonathon (students phoning alumni) reports 30,000+ alumni reached in ten years. The calls leave nothing a student can reuse.

5 · Feeds announce; they don't teach

Feeds carry invites, recaps, awards. IIMA's e-Synchrony attendees asked for "more frequent" contact [12]. No peer runs a career series in alumni's own words.

SECTION 1 · OFFLINE ALUMNI ACTIVITIES

Each peer's two most telling recurring events, using the same fields

Latest edition with public data shown. n/p = not publicly disclosed.

Pattern. Every peer has one big set-piece and one smaller, repeatable format. The smaller format (chapter evenings, Anusmaran, Nostalgia) is what keeps alumni coming back.

Who does the work. Students organise wherever students are the audience: Alumination, Nostalgia and Anusmaran. Offices and associations run awards, giving and conclaves.

Gap. Attendance is the only result anyone reports. No peer publishes what happened after an event, such as mentors signed up or follow-ups made.

SECTION 2 · INITIATIVES & TASKS

--	---	--	---	--

What repeats. 1:1 mentoring, awards and city meets appear at four or five of the peers. These are table stakes, not differentiators.	What is rare. Formats that ask alumni for a small, fixed amount of time: admissions panels (IIMB), Phonathon (IITB), Gravitas breakouts (IIMB).	What needs infrastructure. Investor platforms (Clarion Call), legacy giving and matching software all need a legal entity, a development office or clean data first.

SECTION 3 · DIGITAL & SOCIAL

Peers use their channels to announce events, not to keep alumni talking between them

Counts = latest publicly indexed figure (snapshot year). n/v = post-level engagement not verified for this edition.

Peer	LinkedIn page · followers	Other channels	Website · newsletter	Recurring series · content types	Last 10 posts	Remark for IIM Mumbai
IIMA	Moderated LinkedIn groups, verified members only; page count n/p	X, Instagram, LinkedIn linked from WIMWIAN	alumni.iima.ac.in; WIMWIAN triannual print + e-zine [14]	Chapter news, award announcements (YAAA), reunion galleries; magazine carries long-form	n/v	Verification keeps groups clean; useful where two brands' alumni mix.
IIMB	IIMBAA · 1, 945 (c. 2022) [25]	X @IIMBAA; Facebook; IIMBAA app	iimbbaa.com; LSquare monthly e-newsletter [23]	Event promos (Anusmaran, IIMBue), chapter launches; The IIMB Podcast, run by the institute, twice monthly since 2020 [26]	n/v	A fixed monthly rhythm beats ad-hoc posting.
IIMC	No alumni-association page verified; institute page carries alumni news	Mumbai chapter Facebook group; YouTube meet films (Dubai 2025) [36] [37]	alumniportal.iimcal.ac.in; Joka Konnect magazine	Reunion and meet recaps, chapter updates	n/v	What happens without one alumni handle: content scatters across chapters.
IITB	SARC · ~2, 166 (undated) [41]; IITBAA page	InstiApp event pages; Dean ACR posts per city meet	acr.iitbombay.org; "From the Dean's Desk" monthly [47]	Countdowns (#7daystogo), schedule reveals, opportunity posts (projects, internships)	n/v	Campaign-style build-up to one flagship event works, and can be copied for Sansmaran.
IITD	IITDAA · 13, 352 (c. 2024) [52]	Instagram @iitdaa; YouTube; X; Telegram; Facebook	alumni.iitd.ac.in news and event pages [51]	Chapter invites, She Inspires webinars, conclave announcements	n/v	Widest spread. Every chapter invite lists every handle.
IIMM	IIM Mumbai Alumni Assn · 8, 376 (c. 2023) + legacy NITIE Alumni Assn · 6, 621 [3] [4]	Facebook NITIE.Alumni (legacy)	iimmumbaialumni.in; AlumNITI annual magazine [1] [2]	Sansmaran posts (#sansmaran2023), #newbeginnings	n/v	Followers are split across the old and new brand. Merging them is the first digital job.

SECTION 4 · SYNTHESIS BY PEER: WHAT STANDS OUT, WHY IT WORKS, WHAT IIM MUMBAI SHOULD TAKE

IIM Ahmedabad

Stands out: SIGs give senior alumni a standing role alongside faculty.

Why: a group with a topic outlives a one-night event.

Take: start functional circles only once you know who works in which function. Get the data first.

IIM Bangalore

Stands out: 24 Anusmarans in a year, co-organised by students.

Why: chapters host, students do the legwork, the office coordinates.

Take: give IIM Mumbai's Apr–Jun regional meets to interns in each city.

IIM Calcutta

Stands out: a single city chapter (Mumbai) runs a national startup contest.

Why: chapter autonomy plus a partner (Innovation Park).

Take: make founders a Sansmaran segment (150+ alumni startups); hold off on investor platforms.

IIT Bombay

Stands out: the only peer that publishes counts for its student-run programmes.

Why: a standing cell with portfolios and office backing.

Take: copy the Phonathon (students phoning alumni), not the 5,000-person fest.

IIT Delhi

Stands out: it starts with a platform: algorithmic matching and the most channels.

Why: it scales without a large student team.

Take: matching software is only as good as its records, so update the records first.

FROM BENCHMARK TO OPPORTUNITY

Peers reach alumni by calling, meeting and matching. Almost none of it leaves anything the next student can use.

WHAT PEERS DO	Call — IIT Bombay's Phonathon: 30,000+ alumni in ten years [41]. Meet — Anusmaran (24 meets a year), Nostalgia, chapter evenings [17] [29]. Match — ASMP 300+ mentors; IIT Delhi's algorithmic pairing [39] [50]. ↓
WHAT'S MISSING	The conversation ends with the call or the evening. No peer publishes what happened after a mentor match. No peer runs a recurring career series in alumni's own words. Mentoring asks are year-long and heavy, so many alumni never say yes. ↓
IIM MUMBAI'S OPENING	Renamed from NITIE in 2023 [5], its alumni now follow two LinkedIn pages, ~8.4k and ~6.6k (cached) [3] [4]. The portal claims 10,000+ alumni in 45 countries and 500+ CXOs [2], but regional meets and Sansmaran invitations need current city and function data. The events to welcome alumni back already exist: Apr–Jun regional meets and Sansmaran in Nov/Dec [1]. ↓
PROPOSED INITIATIVE	Roll Call — students phone alumni, as IIT Bombay's Phonathon does, but every call produces three things: a verified alumni record, a published Path Card (the alumnus's career path), and an alumnus who agrees to answer one focused student question a month.

WHAT TO COPY, ADAPT, OR LEAVE

Call	Practice (peer)	Why
COPY NOW	Student phone outreach (IITB Phonathon)	Near-zero cost, highest reach
COPY NOW	Interns run summer city meets (IIMC, IIMB)	Fits existing Apr–Jun regional meets
COPY NOW	Countdown campaigns for one flagship (IITB)	Ready-made playbook for Sansmaran
ADAPT	SIGs (IIMA) → functional circles	Only after function data exists
ADAPT	Startup pitch (IITD) → founders' slot at Sansmaran	150+ alumni startups to draw on
ADAPT	Shadow days (IITB) → Mumbai alumni firms	Powai and BKC are a short trip from campus
NOT YET	Investor platform (IIMC Clarion Call)	Needs a registered chapter and an investor pool
NOT YET	Matching software (IITD)	It would match students to out-of-date records
NOT YET	Multi-day fest (IITB Alumination)	Needs a SARC-sized team

PROPOSAL AT A GLANCE

Roll Call

Six weeks · 100 alumni conversations

PROBLEM

Alumni data is out of date across two brands; mentoring asks are too heavy; conversations aren't recorded anywhere students can use.

MECHANISM

10 student callers book 20-min calls, follow a 6-question script, and fill one form. Each call yields a record, a Path Card, and an opt-in to answer questions.

PILOT

6 weeks ending at Sansmaran 2026: regional-meet cities first, then by function. ₹8,000 estimated budget.

KPIS

100 calls · 100 records verified · 24 Path Cards · 40 opt-ins · 80% of asks answered in 7 days · RSVP lift
